## *Online Courses: After the Course*

---

After completing an online course, reflect on your experience.

What worked? What didn't? Are there strategies you would use again or things that you could improve?

An online course is a learning experience not just in terms of course content, but also in terms of your own learning style.

Through reflection, you can continually improve your academic skills.

*Did I have enough time for the course?*

*Was I able to keep up? What helped me to stay on track?*

*How did I stay motivated? How*

*I could improve next time?*

*Did I enjoy the course? Why or why not?*
